About Us

Vertraue auch Du, wie bereits viele vor Dir, ...

LPS-Lasersysteme, einem führenden Hersteller von erstklassigen Lasershowsystemen, intelligenter Lasershows Software sowie Anbieter von Lasershows und wichtiger Partner bei internationalen Multimediashows.

Weltweit vertrauen erfolgreiche Erlebnis-Gastronomen, Veranstaltungsgesellschaften, Entscheidungsträger vielerlei Institutionen und Regierungen sowie andere professionelle Lasershows-Anbieter und Lightdesigner unserem Unternehmen, welches 1993 im Süd-Westen Deutschlands gegründet wurde.

Flexible Produktfertigung im internationalen Premiumbereich für Lasershowsysteme und kompetentes Umsetzen von Kundenwünschen, erlaubt profitables Einsetzen der Produkte mit dem Resultat vielseitiger, farbbrillanter Lasershows auf großen Veranstaltungen mit mehreren hunderttausend Zuschauern, zuverlässige Lasershowsysteme die rund um den Globus gekauft werden und nicht zuletzt zufriedene Kunden weltweit.

Herstellung in Deutschland - Verkauf, Installation, Vermietung und Dry Hire weltweit!

Trust us - like many other clients around the world already do!

LPS-Lasersysteme is worldwide known as a leading manufacturer of premium laser show systems, intelligent laser show software and supplier of demanding laser shows as well as important partner for international multimedia shows.

Successfull event agencies and adventure restaurateurs, decision makers of many institutions and Governments, as well as other professional laser show providers and lighting designers around the world trust our company that has its headquarter in south-west of Germany since 1993 and produces the complete noble laser show equipment there.

Experience, clients' demands and implementation options are specifically brought in harmony – versatile, brilliant color laser shows at large events with more than hundred thousands spectators, reliable laser show systems purchased around the globe are the result and last but not least: satisfied and always recurring customers around the world.

Manufacture in Germany - Sales, install, rental and dry hire worldwide!

LPS-Bax ist auch auf der wohl größten Theaterbühne der Welt daheim und fasziniert als unser Bestseller weltweit mit:

- Materialien von höchstem Niveau für edles, zeitloses Design
- innovativen, modernen Features
- kompaktes Gehäuse, für jede Bühne
- hohe Farbstabilität, geringer Wartungsaufwand
- optional als LAN Projektor. Bestehende Geräte durch ILDA Schnittstelle einfach mit LAN-ILDA-Konverter nachrüsten
- auf Wunsch konfigurieren wir Deine bevorzugte Farbbebalance

Beliebt bei Erlebnisgastronomen, Lichtdesigner, Veranstalter, Hotelbesitzer, Verantwortliche für Regierungsprojekte, anderen Anbietern von Lasershows und Betreiber von Theaterbühnen.
Erhältlich bis 100W RGB. Mehr Laserleistung auf Anfrage!

Regenschutz Rain Defender

Wasser- und schmutzabweisend durch Teflonimpregnierung, Fungizide Ausrüstung verhindert Schimmelbildung. Die hohe Wasser- und UV-Beständigkeit sorgen für eine gute Langzeitoptik.

Waterproof and dirt repellent by Teflon impregnation. Fungicides outfit – prevents mold. The high water and UV resistance ensure a good long-term look.

SunFreeze 1800
Outdoor Housing for
LPS-Bax XS and LPS-Bax S
show laser.
For summer and winter
installations go for the
perfect temperature.
Made in Germany.

**Unser Bestseller! Zu Recht!
Our bestseller! Of course!**

LPS-Bax performs on the probably biggest theatre stage of the world. Our bestseller fascinates our clients worldwide with:

- precise processed materials with innovative, modern features
- noble, timeless design and compact housing, for any stage
- high colour stability, low maintenance, and much more
- optionally available as LAN projector. Existing ILDA projectors can be upgraded later with a LAN-ILDA converter
- **we create your favourite color balance. Feel free to ask us!**

Experienced restaurateurs, lighting designers, organizers of different events, hotel owners, theatres and theme parks and responsibles for governments projects trust our laser technology.
Available up to 100W RGB. More laser power on request!

Easy Outside Beam Alignment

Wenn doch mal erforderlich, kannst Du hier ganz bequem direkt am Gehäuse die verschiedenen Laserlinien justieren.

By our „Easy Outside Beam Alignment“ you can adjust easily the different laser lines, when needed.

SpectraL3

Jeder Bax Showlaser kann jederzeit auf Wunsch mit SpectraL3 ausgestattet werden. Neben Laseranimationen können somit auch Lasereffekte mit Strich, Kreuz und Lumia ausgegeben werden. Ansteuerung per DMX.

Each Bax can be upgraded at any time and on demand with SpectraL3 to create beside breathtaking laser animations also laser effects with line, grid and lumia. Just connect it and enjoy additional laser effects. Controllable via DMX.

LPS-Bax SixSCAN Pro // Sales, Rental, Dry Hire

RGB Six Scanners DMX, ILDA Art-Net 24.5 kg

LPS-Bax SixSCAN Pro. Eine Bar. Viele Möglichkeiten.

Die LPS-Bax SixSCAN überzeugt mit Leistung, farbenprächtiger Ausgabe und sechs einzeln ansteuerbaren Scannern für unterschiedliche Laserausgaben und unterschiedlichen Farben (RGB) zur gleichen Zeit.

Ansteuerung via DMX, ILDA sowie ArtNet.

Ob als symmetrische Ausgabe, oder ein gewollt wildes Durcheinander - die LPS-Bax SixSCAN passt sich angenehm in das Bühnenbild ein - unauffällig aber gewiss auffallend.

Perfekt geeignet für den professionellen Lichtdesigner beim Konzert, Theater, Oper, TV Shows, Festival, Freizeitpark und jedes andere Event.

Erhältlich in 18W RGB. Kauf und Dry Hire.

Blind Guardian - The God Machine Tour 2023
Photo: Dirk Behlau | Pixeleye

LPS-Bax SixSCAN Pro will beam you up to more attention

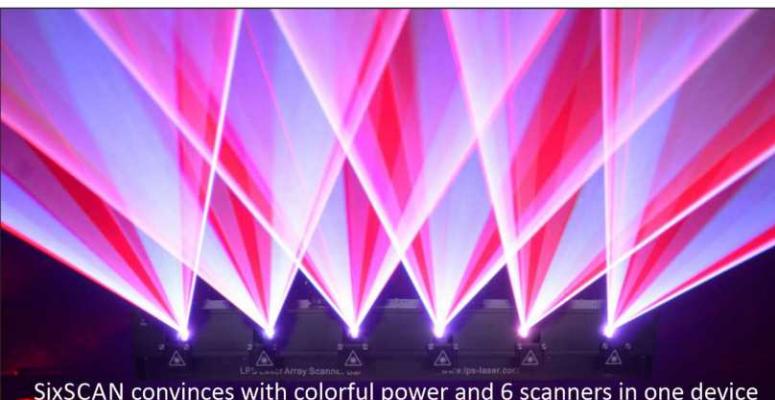

The LPS-Bax SixSCAN convinces with power, colorful output and six scanners for different laser output and different colors (RGB) at the same time.

Controllable via DMX, ILDA plus ArtNet.

Whether as symmetric laser animations or as a controlled wild confusion - the LPS-Bax SixSCAN is made for staging - inconspicuous but certainly striking.

Perfectly designed for professional lighting designers at concerts, theaters, operas, TV shows, festivals, theme parks and each other event.

Available in 18W RGB. Sales and dry hire.

SixSCAN convinces with colorful power and 6 scanners in one device

Operate the scanners as you prefer

LPS Laser Array Beam Bar RGB// Sales, Dry Hire

RGB 8 Single Beams

DMX
45 channels

10 kg

Das i-Tüpfelchen für
professionelle Lichtdesigner!
The „must have“ for
professional light designers!

LPS Laser Array Beam Bar RGB(LABB) - LPS Laser Array Beam Bar RGB will das i-Tüpfelchen für Deinen Event

Die LPS Laser Array Beam Bar RGB - kurz LABB - überzeugt mit Leistung, farbenprächtiger Ausgabe und präzisen Beams, zusätzlich ausgestattet mit acht dimmbaren Weißlicht-LED.

Jeder einzelne Beam kann beliebig eingefärbt (RGB) und angesteuert werden. Ansteuerung via DMX.
Gesamtleistung >3W RGB.

Ob als einzelner Effekt, Laserstrahlhimmel oder Lasernetz - die LPS Laser Array Beam Bar RGB (LABB) ist ein Hingucker, der horizontal und vertikal eingesetzt werden kann und für Staunen sorgt.

Lass Dich inspirieren und überzeuge Dich selbst!

Perfekt geeignet für den professionellen Lichtdesigner beim Konzert, Theater, Oper, TV Shows, Festival, Freizeitpark und jedes andere Event.
Kauf und Dry Hire.

The LPS Laser Array Beam Bar RGB - we call it LABB - convinces with power, colorful output and precise beams, combined with eight dimmable white light LEDs. This laser beam bar gives your creative laser performance additional „icing on the cake“.

Each beam is controllable separately and you can color each single beam (RGB) as you like. Operating via DMX.
Complete power >3W RGB.

Whether as a single effect, laser beam sky or laser net - the LPS Laser Array Beam Bar RGB (or only LABB) is an eye-catcher that can be installed horizontally or vertically and makes you wonder.

Perfectly designed for professional lighting designers at concerts, theaters, operas, TV shows, festivals, theme parks and each other event.
Sales and dry hire.

LABB gives you beams and/or light effects

When using several LABBs, an amazing laser sky / laser net can be created.

LPS-RealTIME Pro Software

The LPS-RealTIME Pro Multimedia Software is one of the well-known on the professional market. German engineers have implemented nearly 30 years practical experience and pure user knowledge in this software, which is kept up-to-date continuously. Create simply your own laser show with LPS-RealTIME Pro and control your laser show, video, light, fireworks, water fountains, fog machines and much more.

RealVIEW is a clever feature integrated directly into LPS-RealTIME Pro software as visualization function. The module enables the realistic appearance of shows - almost as if you are already on-site.

LPS-RealCAD Pro is an extensive graphics program and meets all requirements, with simplified 3D programming, as well as a 2D/3D view. Import filters for all common image formats, all true type fonts existing in the computer system as well as Arabic, Cyrillic and all Asian fonts.

Through the advanced, innovative **LPS-RealTIME Pro** software, previously programmed laser parts get the finishing touch. With just a few clicks morphings, run text and camera movements and sound effects are added.

Discover for yourself the great features and advantages of the LPS-RealTIME Pro Multimedia Software.

Try the LPS-RealTIME Pro full version for free.

The full version of the LPS-RealTIME Pro laser show software without USB Interface or LAN Interface (for laser output) is free of charge.

You can easily request the download link by email to

shine bright!**

Advantages of LPS-RealTIME Pro

- * up to six color outputs separately controllable
- * real 60 kpps *
- symmetrical interface * 24 TTL, DMX out, MIDI IN *
- extensive graphics program with realtime output during drawing, logo tracing *
- 2D/3D view * import filters for all usual picture formats like e. g. BMP, JPG, GIF and ILDA *
- numerous special effects * 8 different overlays *
- 10 scanners can be controlled separately and directly via LPS-RealTIME Pro laser show software *
- extensive image library inside the laser show software *
- point-specific angle optimization from 0° – 180° *
- LPS-RealTIME Pro offers further comprehensive processing features *
- 32 internal character fonts *
- all true type fonts, open type fonts (including Arabic, Cyrillic, all Asian fonts, ...)
- * 10 separately controllable scanner-output-levels with 128 tracks each *
- video output during the show *
- fade in, fade out, run text, morphing, sound effects, camera effects and much more *
- open access to image library of the software *
- Bitmap-Raster, frame with true colors *
- import of wave and Mp3 *
- exact adjustment of the music to the laser show *
- contains over 150 complete laser shows *
- individual software training combined with the topic laser safety during a laser show *
- Software support *
- constant extension of features of this laser show and multimedia software *
- full version of LPS-RealTIME Pro laser show and multimedia software *
- LPS-RealTIME Pro can also be controlled via Art-Net, for example from grandMA *
- Software output via USB or LAN Interface

Pangolin Software

Laser Control Systems with QuickShow Software

QuickShow ist ein komplettes Lasercontrol-System, welches die QuickShow-Software und FB3QS/FB4 Hardware beinhaltet. Mit ihr kannst Du vorprogrammierte Lasershows erstellen und eigene Lasershows "live" am PC, Touchscreen oder Control Board starten. Die QuickShow-Software wird mit circa 2.000 vorprogrammierten Effekten geliefert und beinhaltet eine große Auswahl an Beam Effekten, abstrakten Lissajous-Effekten, Lasergrafiken, Animationen, Logos und mehr. Ein einfacher Klick auf den gewünschten Effekt genügt, und er wird umgehend am Lasershowsystem ausgegeben.

QuickShow is a complete laser control system including both the QuickShow software and FB3QS/FB4 hardware. It allows you to create pre-programmed laser light shows, as well as giving you the ability to run your shows "live" directly from PC, touchscreen, or control board. The QuickShow software comes with nearly 2,000 pre-programmed cues already included, with a wide variety of beam effects, abstracts, graphics, animations, logos, and more for you to choose from. Simply click on a cue, and see it displayed immediately in laser light. In addition, if you want to make your own custom content, the Quick Tools inside of QuickShow make designing beam effects, graphics, text, animations, abstracts, and timeline based shows easier than ever before.

Laser Control Systems with BEYOND ESSENTIALS, ADVANCED or ULTIMATE Software

BEYOND kann mit unterschiedlicher Hardwarekonfiguration bestellt werden.

BEYOND can be ordered with different hardware.

Nebelmaschine // Fog Machine

Nebelfluid // Fog Liquid

Nebelmaschine. Schnell. Zuverlässig. Made in Germany.

Professionelle Veranstaltungen, egal welcher Größenordnung, benötigen zuverlässiges und leistungsstarkes Equipment.

Einfache Handhabung durch bewährte Elektronik.

Fog Machine. Fast. Reliable. Made in Germany.

Reliable and powerful equipment for each professional event, no matter what size, no matter if indoor or outdoor.

Easy handling by sophisticated electronics.

Nebelmaschine Data II

Eine Nebelmaschine muss dann Nebel liefern, wenn man Nebel braucht. Als bewährte Nebelmaschine empfehlen wir die Data II. Auf Wunsch Lieferung im Flightcase.

Fog machine Data II

A fog machine must provide fog when you need fog. As proven fog machine, we recommend from personal experience the fog machine Data II. Optional with flightcase.

Tour-Hazer

Ideal für jede Indoor-Show mit bewegtem Licht. BGV C1 zertifiziert. Dunstmenge und Lüfter getrennt regelbar, am System oder per DMX. Transportfertig. In verschiedenen Cases.

Tour-Hazer

Perfect for any indoor show with moving light. BGV C1 certified. Haze and fan separately controllable at the system or via DMX. Delivered ready for transport. Choose from different cases.

Helix Nebelfluid. Kontrollierte Qualität. Made in Germany

Die hohe chemische Reinheit der verwendeten Komponenten beugt schneller Verschmutzung von Nebelmaschinen vor und kann deren Haltbarkeit unterstützen. Erhältlich in verschiedenen Dichten.

Helix fog liquid. Controlled quality. Made in Germany

The high chemical purity of the used components prevents fast contamination of the smoke machine and extends its life-span. Available in different densities.

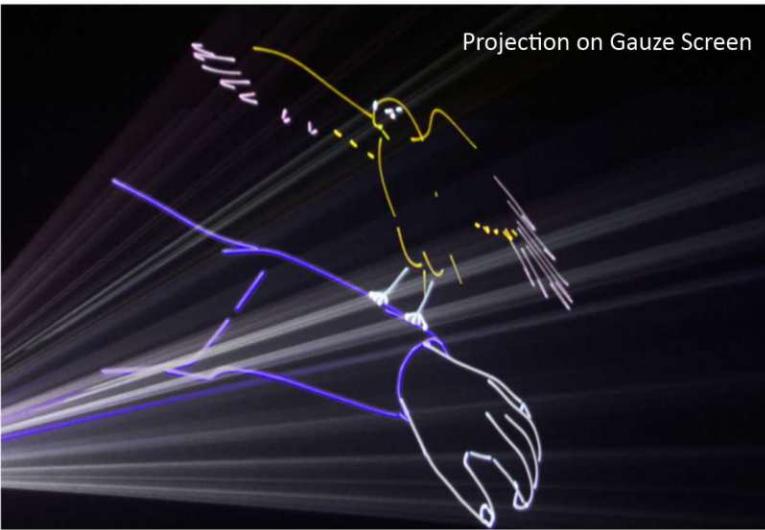

Welche Leinwand? // Which Screen?

Welche Projektionsfläche? Hier ein paar Beispiele:

 Sehen und gesehen werden - mit der richtigen Projektionsfläche.

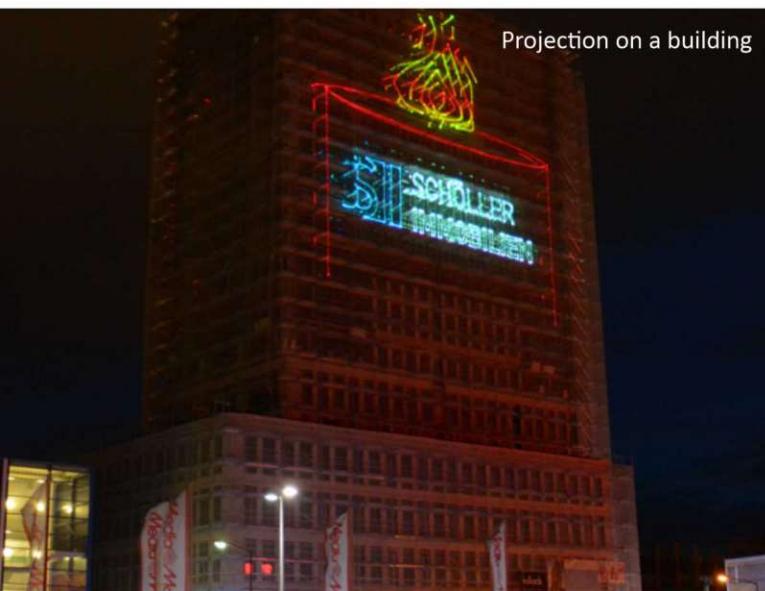

Logos, Grafiken, Animationen, Trickfilme - die Erzeugung beeindruckender Laserprojektionen während eines Events, ist für viele Betrachter einer der bemerkenswertesten Effekte der Lasertechnik. Für optimale Laserprojektionen - auch Video - gibt es unterschiedliche Projektionsflächen wie etwa PVC, Gaze, Wasserwand und Hydroschild - aber auch eine Hauswand, einen Hallenboden oder -decke, ein ganzes Gebäude für Mapping, einen Berg, usw. Die Möglichkeiten liegen in Deiner Kreativität und den örtlichen Gegebenheiten.

What kind of screen? Some examples:

 Screens are used for logos, graphics, laser animations and trickfilms.

To project impressive laser animations and graphics during an event is the most remarkable effect of laser technology. For an optimal screen projection whether laser or video, there are different screens like PVC, gauze, water screens and of course a wall, a hall floor or ceiling, an entire building for mapping, a mountain, etc. The possibilities are up to your creativity and the requirement of the location.

Water Fountains

Black Sea Arena, Shekvetili, Georgia

Faszination und Fantasie. Emotion und Leidenschaft.

Magievolle Elemente ziehen uns Menschen regelrecht in ihren Bann. Ein absoluter Blickfang ist die Kombination von Lasershows mit Wasserspielen. Nahezu in allen Größen realisierbar, mit den schönsten Figuren und stimmungsvoll zur Musik in Farbe gesetzt, perfekt mit Lasereffekten und -animationen kombiniert, nimmt uns die Symphonie aus tanzenden Wasserfontänen und anmutiger Laserinszenierung mit in eine andere, magische Welt. Dieser Traum realisieren wir zusammen mit besonders professionellen und erfahrenen Partnern zum Beispiel für: Einkaufszentren - Shopping Malls - Outlets - Unterhaltungszentren und Freizeitbäder - Freizeitparks - Hotels - Nationalfeiertage - Kultur- und Sportzentren - Kongresszentren - Arenen - und was Du sonst so daraus machst!

Fascination. Imagination. Passion.

Magic elements attract people into their spells. An absolute eye-catcher is the combination of laser shows with water fountains.

Almost in all sizes feasible, with the most beautiful figures and atmospherically set to the music, perfectly combined with laser effects and animations, the symphony takes us from mystic water fountains and graceful laser staging to another, magical world. We realize this dream with professional and experienced partners for example for:

Shopping malls - outlets - entertainment centers and leisure pools - amusement parks - theme parks - hotels - national holidays - cultural and sports centres - congress centres - arenas - and what else you like to do!

Baroque Castle, Mannheim, Germany

Ideen Lasereinsatz // Ideas of laser usages

Kombiniere Laser, Video, Feuerwerk, Wasser, Musik, ... / Combination of laser, video, fireworks, water, music, ...

Firmenjubiläum / Company's Anniversary

Messen und Ausstellungen / Trade Shows and exhibitions

Lasermapping / Laser mapping

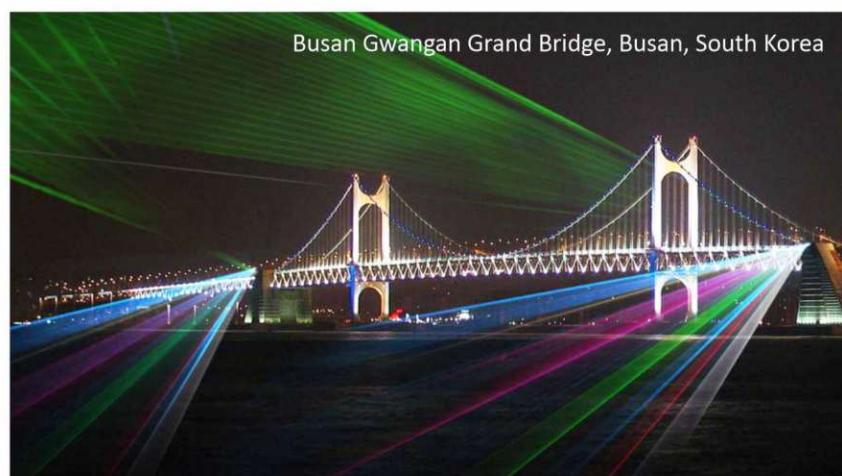

There are numerous events!

like e.g. highlight in a planetarium, an effective element at water shows, eye-catcher in shopping malls, festivals, movie and TV, amusement parks, hotels and cinemas, and much more.

Let your ideas run wild!

Blickfang / SkyLaserBeam

Einweihung von Sehenswürdigkeiten / Inauguration of sights

Unlimited Ideas // Examples of Use

Photo: Tim Hoppe / Sunrise AVE Europe Tour

Es kommt darauf an, was Du daraus machst.

 Lasershows bedeuten Gänsehaut, Fantasie, Gefühle, Staunen! Perfekte Lasershows wirken, als wären sie nicht von dieser Welt. Und weil sie immer wieder andere Emotionen wecken, kann man sie nahezu unbegrenzt in jedem Bereich einsetzen. Ein paar Ideen sind zum Beispiel:

Automobilindustrie - Bowlingcenter - Casinos - Einkaufszentren - Shopping Malls - Outlets - Unterhaltungszentren und Freizeitbäder - Eröffnungszeremonien - TV Shows - Film und Video Clips - Freizeitparks - Theater - Musicals - Firmenfeiern - Hotels - Spezialeffekte - Messen - Museen - Nationalfeiertage - Produktpräsentationen - Konzerte - Festivals - Neujahrseierlichkeiten - Skigebiete - Sportveranstaltungen - Tourneen - Werbung - SkyLaserBeam - Interaktive Shows - Weihnachtszirkus - und was Du sonst so daraus machst!

Let your ideas run wild. It's your project.

 Laser shows mean goose bumps, fantasy, feelings, amazement! Perfect laser shows seem like they're not from this world. And because they cause always different emotions, they can be used almost indefinitely in any area. A few ideas are for example:

Automotive industry - Opening Ceremonies - Theme Parks - Amusement Parks - Theatres - Hotels - Cruisers - Musicals - Product presentations - Concerts - Festivals - Bowling Centers - Casinos - Shopping Malls - Outlets - Entertainment Centers and Pools - TV Shows - Film and Video Clips - Special Effects - Exhibitions - Museums - National Days - New Year's Eve - Company Celebrations - Skiing Areas - Sport Events - Tours - Advertising - SkyLaserBeam - Interactive Shows - X-Mas Circus - It's your project. Let your ideas run wild!

References // Installations

Laser ist vielseitig und immer anders.

Showlaser von LPS werden in spannenden Bereichen weltweit eingesetzt. Von Freizeitparks über TV Shows und Festivals bis hin zur Gebäude- und Brückenillumination.
